LENTEN SEASON

Beginning Today, to End on Easter Sunday, April 23d.

Today marks the beginning of the Lenten season of 1905. Easter Sunday will be April 23d, a remarkably late date for that festival. Only twice in the last 100 years has the day fallen on a later date—in 1859, on April 24th, and in 1886, when the day was celebrated on April 25th, the latest possible date upon which the festival may fall. A late Easter is welcomed by merchants, particularly dealers in women's wear. The spring will be well advanced by April 23d, and as a consequence the weather will be more favorable to the wearing of the finery and millinery which have come to be considered as necessary adjuncts to an appearance at church or on the streets on Easter day.

MRS. MARGARET ANN WOOD.

The death of Mrs. Margaret Ann Wood yesterday afternoon at 2 o'clock at her home in East Third street was a great shock to her friends. Although the knowledge of her illness was general, and of about two weeks duration, her improved condition the past few days, and especially yesterday, was gratifying and gave promise of a speedy restoration to her wonted good health. She ate a hearty dinner, considering her illness, and was cheerful and hopeful.

She was sitting in a rocker conversing with her husband when stricken with death. Mr. Wood carried her to a bed and she expired in a few minutes, never uttering a word.

Deceased was born in Mason county some 60 years ago; her maiden name was Margaret Ann Kirk, and she married her husband, Joseph Wood, 36 years ago.

Mr. Wood was a most excellent Christian woman, kindly and generous and loved by all who knew her. She was a devoted wife, a fond and considerate mother, a good neighbor and citizen, and her death is a loss to the community.

Beside her husband she leaves three children, two sons and a daughter—Mrs. Charles Biggar of the county, R. Scott Wood of the United States Navy and Harry Wadsworth Wood of the Southern Express Company.

The funeral will take place from her late home Friday afternoon at 2 o'clock, with services by the Rev. W. W. Hall and the Rev. R. E. Moss.

The interment will be in Maysville Cemetery.

MRS. NANCY CURTIS.

Mrs. Nancy Curtis, aged 65 years, of near Germantown, a highly respected citizen, died Sunday night.

She is survived by a husband and three children.

The deceased was an aunt of Mrs. William H. and James Breeze of this city.

The funeral took place yesterday at 11 o'clock and was attended by a large following of sorrowing relatives and friends.

MERTLE DEATLEY.

Myrtle, the four-year-old infant of Mr. and Mrs. F. M. Deatley of the Sixth Ward, died yesterday evening at 6:30 o'clock.

Funeral tomorrow at 10 o'clock.

Interment at Tollesboro Cemetery.

MRS. LUCINDA SEED.

Mrs. Lucinda Seed died Monday at 2 o'clock near Murphyville of grip, aged 83.

She leaves two brothers, Messrs. John and William Rhodes of the county.

The funeral was held yesterday afternoon at 3 o'clock in the Presbyterian Church at Murphyville, with services by Dr. Waller. Interment in Shannon Cemetery.

TIME IS THE TEST.

The Testimony of Maysville People Stands the Test.

The test of time is what tells the tale. The public soon find out when misrepresentations are made, and merit alone will stand the test of time.

Maysville people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? A cure that lasts is the kind that every sufferer from kidney ills is looking for.

W. H. Paul, carpenter by trade, living at 333 East Third street, Maysville, Ky., says:

"I value Doan's Kidney Pills as highly today as I did when I first used them in 1899. I got a box then and used it for pain in my back and other evidences of a disordered condition of the kidneys which had given me much trouble for two years or more. This remedy acted promptly and I was soon cured. I did not notice any of the difficulties until some four years later, or about a year ago, I again procured Doan's Kidney Pills at J. Jas. Wood & Son's Drugstore and all symptoms of the trouble were quickly and thoroughly removed. Since then I have not noticed any signs of trouble of any kind arising from my back or kidneys. I most cheerfully re-inforce Doan's Kidney Pills, for they are certainly worthy of recommendation."

For sale by all dealers. Price 50 cents a box.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Cataract. Hall's Cataract Cure is the only positive cure now known to the medical fraternity. Cataract being a constitutional disease, requires a constitutional treatment. Hall's Cataract Cure is twice internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

DOVER BRICK PLANT

Town Council Does the Unexpected Thing Monday Night

All the people in this section remember the strenuous times the Dover Town Council and the owners of the brick yard at that place have had in the past few months when the latter undertook to remove the plant to Ripley.

Dover had a pretty strong claim on the property and thwarted every step the brick people took to carry the plant away.

Injunctions were gotten out to prevent the removal, Judge Harbeson deciding for the town. Officials were summoned to Flemingsburg and Brooksville, where the cases were heard, but Dover was allowed to hold onto its own.

A sum of \$800, with the grounds of the plant and other minor considerations, had been offered Council for the property but the terms were not accepted.

But a hoodoo has been at work. At the meeting of the Town Council Monday night that body transferred to the Dover Brick Company the brick, machinery and buildings of that enterprise for the sum of \$500, the grounds and one clamp wall.

The owners of the yard are Messrs. J. C. Shumaker, Walter Wilson and George M. Clincher, who will immediately dismantle the Dover plant and remove the material to Ripley.

After the successful fight the town people had made for so long in keeping the manufacturer in their midst one would think its removal now would make the most of them feel like thirty cents.

Important Carpet Facts

Spring is here for March has introduced it by the calendar, even if the confirmation of the thermometer is lacking. Your thoughts naturally turn to the freshening and adornment of the house of which Carpets and Rugs are always the important adjunct. Let us consider the question from your viewpoint and ours.

THE CUSTOMER.

Three prime considerations govern your carpet and rug selections—

First—Quality. You justly expect service and long life in carpets of guaranteed merit.

Second—Design. It is your right to demand the latest patterns, the most stylish color combinations.

Third—Price. Business acumen prompts buying where you find the lowest price consistent with quality and style.

THE MERCHANT.

We are governed by the same vital points in buying—

DURING the Civil War, when General John Pope was placed in command of the Army of the Potomac after the disastrous failure of McCLELLAN's "Peninsular Campaign," his first order was dated "Headquarters in the Saddle." And when General KUROPATKIN started on his campaign against the Japanese, he boastfully said, "I will dictate terms of peace from Tokyo." Bragging doesn't win battles; and it now looks very much as though Field Marshal OYAMA would dictate terms of peace from St. Petersburg.

It took President Roosevelt just twelve minutes to deliver his inaugural address, but in that time he managed to say things that the whole world has since been talking about. LIVING TOO HASTILY

AMERICAN WOMEN BREAK DOWN

Irregularities and Female Derangements Result—Cured by Lydia E. Pinkham's Vegetable Compound.

Owing to our mode and manner of living, and the nervous haste of every woman to accomplish just so much each day, it is said that there is not

one woman in twenty-five but what suffers with some derangement of the female organism, and this is the secret of so many unhappy homes.

No woman can be amiable, light-hearted and happy, a joy to her husband and children, and perform the dutiful incumbent upon her, when she is suffering with backache, headache, nervousness, sleeplessness, bearing-down pains, displacement of the womb, spinal weakness or ovarian troubles.

Irritability and snappy retorts take the place of pleasantness, and all sunshine is driven out of the home, and lives are wrecked by woman's great enemy—womb trouble.

Read this letter:

Dear Mrs. Pinkham:

"I was troubled for eight years with irregularities which broke down my health and brought on extreme nervousness and debility. Lydia E. Pinkham's Vegetable Compound proved to be the only medicine which helped me. Day by day I improved in health while taking it until I was entirely cured. I can attend to my social and household duties and thoroughly enjoy life once more, as Lydia E. Pinkham's Vegetable Compound has made me a well woman, without a ache or a pain."

—Mrs. Chester Curry, 42 Saratoga Street, East Boston, Mass.

At the first indication of ill health, painful or irregular menstruation, pain in the side, headache, backache, bearing-down pains, nervousness or "the blues," secure at once a bottle of Lydia E. Pinkham's Vegetable Compound and begin its use.

UP TO HAWKINS

Charged That President of Burley Association Welch

Developments Which Call For a Complete Exposition of the Company's Affairs

"Did President W. B. Hawkins of the Burley Tobacco Growers Association sell out that organization?"

"Did he betray it and defeat it in an effort to secretly secure big profits to himself?"

These are questions that are now agitating the inner circles of the Association and rippling out among the farmers who pledged their tobacco to the organization headed by Mr. Hawkins. Mr. Hawkins was recuperating and recreating in sunny Florida, after his strenuous efforts to finance the Growers Association—and incidentally, it is charged, to feather the nest of Mr. Hawkins. It will be remembered that during the days when the fate of the Association hung in the balance Mr. Hawkins was very talkative, issuing an official statement or giving out an authorized interview about every sixteen minutes. That was only a few weeks ago, but now Mr. Hawkins is different. He is not so zealous in giving interviews or making statements. When asked about the charges that he had made a deal with a big chunk of personal gain in it, he declined to answer and discreetly changed the subject, saying, "The corner has failed, and that's an end to it all."

Observe that Mr. Hawkins now cold-bloodedly calls it a "corner." He no longer refers to it as the effort of the oppressed farmers to protect themselves from the strangling clutch of the Tobacco Trust; it is a plain corner—a gambling scheme—as Mr. Hawkins now views it. Observe also that Mr. Hawkins says that

it has failed and "that's an end to it all." But Mr. Hawkins may be mistaken about that. The failure doesn't carry with it "an end to it all" as yet. Those interested are going to insist on knowing why it failed. Now that everything in the way of enormous deals is "off," those interested are insisting on knowing the details of the deals proposed, and just where and how and why they fell through. They want to know just what Mr. Hawkins and his associates did and what they did not.

If the movement of the Burley Tobacco Growers Association did everything on the square it will be to their honor and credit to make a full show-down to the growers who trusted and followed them: if they did not, then their dupes are entitled to know the truth.

Mr. Hawkins's ultimatum "and that's an end to it all," doesn't go just yet. The growers who pledged their crops with him and his associates are not from Missouri, but nevertheless they demand to be shown.

It is charged that when Mr. Hawkins and Archibald Stuart first went to New York to close up financial arrangements with the big capitalists, Mr. Stuart was called home by some business engagements and Mr. Hawkins was left to hobnob with the dollaraires. But Mr. Hawkins disappeared, and it later developed that he had slid away and made contract with a Louisville speculator named Huffaker whereby Huffaker was to get 60% of the profits and give Mr. Hawkins 5% on the side and on the quiet as his share.

When this came out at a Cincinnati meeting some of the Kentucky Directors grew so warm that Huffaker and Hawkins thought discretion the better part of valor and left the meeting.

But Huffaker held the written contract of the Association, by its President, and he declined to surrender it. In all the after efforts to finance the Association this contract "butted in" and spoiled the deal. Finally Stuart, in the face of certain defeat, secured a modification

from Huffaker, but it was too late. There had been too much side-show business for the wary millionaires and they passed up the scheme. When his 5% was cut out Mr. Hawkins quit talking for the public and went to Florida.

Stuart charges that the Association could have been financed and made a success had it not been for the Hawkins-Huffaker agreement. He says that Hawkins's trickery was known to the Directors all the while, but that they feared to cast him as President, because to make public the facts meant certain ruin to the movement. from Huffaker, but it was too late. There had been too much side-show business for the wary millionaires and they passed up the scheme. When his 5% was cut out Mr. Hawkins quit talking for the public and went to Florida.

"There Isn't One
Really Good
Printer in Five
Hundred."

Printers' Ink—the leading journal on publicity—has kindly—has the following to say: "There are thousands of printers in this country, good, indifferent, and a lot of bad ones. There isn't one really good printer in five hundred. Intelligent advertisers are willing to pay for good printing, no matter where it comes from."

Printers' Ink knows what it is talking about. Poor printing is a bad investment—it's worse than a blank. A business man's stationery or booklet is like a trade mark. It's the world's opinion that to the point, the first impression is good and your chances of doing business on the strength of it are good.

We realize this. We keep abreast of the times. We know what good printing is and produce it. We are so careful now that a bad job goes to our presses. No press in the country can better our printing and we want you to know it.

A LETTER TO MOTHERS.

All Maysville Women Should be Interested.

Mrs. Charles Perry of Glens Falls, N. Y., writes: "I wish I could induce every mother who has a weak, sickly child to try that delicious cod liver oil preparation, Vinol. We were so worried about our little daughter—she had lost flesh, was thin, pale and sickly, and nothing seemed to do her any good. Having heard of Vinol we decided to try it, and the results were marvellous. Her appetite has been restored

MARY AGNES PERRY.

and she is gaining in weight right along, the color has returned to her cheeks and she seems stronger than she has for years."

Every mother in Maysville is asked to try Vinol on our guarantee to make children robust, strong and healthy or return money if it fails. Vinol is a pure cod liver oil preparation, but without a drop of oil to upset the stomach and retard its work. It is delicious to the taste and children love it. It does not taste, nor look, nor smell like a cod liver preparation—

We have never sold anything in our store equal to Vinol to create strength for old people, weak, sickly women and children. JOHN C. PEPPER, Druggist.

Mr. Keith Browning is home from State College, Lexington, for a few days on a visit to his parents, Mr. and Mrs. E. P. Browning. Mr. Browning is a graduate of Miss Gordon's Training School. During the past months at State College his grades have been above the given average and his work so entirely satisfactory that he is entitled to go through the school year without taking the regular examination.

We realize this. We keep abreast of the times. We know what good printing is and produce it. We are so careful now that a bad job goes to our presses. No press in the country can better our printing and we want you to know it.

Wine of Cardui, Mopan.

When I was first married I found that my strength and health were gradually diminishing. I became nervous and irritable, and was in bed a week and sometimes ten days of every month, and had intense bearing down pains.

My husband had the best physician for me and I need his medicine for nearly four months, but I gradually grew worse and less strong, and finally, I was unable to leave my bed at all.

A friend who was calling on me brought me a bottle of Wine of Cardui and was so loud in its praise that I told her that I would take it to please her.

It was so good that I took it before I had used the bottle I really felt better, so I kept on using it. Eight bottles brought back my lost health and strength, and I have not had a sick day in six months.
